

## Product information

# 90 25 25

## For composite and plastic pipes

MM

- Up to 60% less effort: the freely rotating cutting wheel allows the pipe to be rotated with minimal friction when cutting
- Optimum cutting results: the rotation allows the cutting wheel to penetrate the pipe effortlessly with minimal deformation
- Wide plastic supports allow perfect right-angled cuts
- Cuts aluminium composite and plastic conduit pipes more easily than conventional shears with a fixed blade
- Also suitable for composite pipes with increased aluminium layer thickness (e.g. Geberit Mepla)
- For cutting composite and plastic pipes up to Ø 26 mm
- Allows for very short correction sections
- With locking mechanism for safe transport
- With ergonomic multi-component handles
- Spare cutting wheel available (Art. No. 90 25 25 E01)

### General

Article No.	90 25 25
EAN	4003773088714
Pliers	chrome-plated
Handles	with multi-component grips
Weight	391 g
Dimensions	210 x 81 x 38 mm
REACH compliant	does not contain SVHC
RoHS compliant	not applicable

technical change and errors excepted

The pipe cutter cuts all common composite and plastic conduit pipes with diameters of up to 26 millimetres. Its robust construction means it is also suitable for composite conduit pipes with increased aluminium layer thickness.

Makes cutting particularly easy: the rotating cutting wheel allows the pipe to be rotated in the pipe cutter with little friction, or, vice versa, the pipe cutter can be rotated around the pipe

The rotary movement means the pipe can also be cut with little pressure, minimising deformation

The wide plastic supports opposite the cutting wheel allow perfect right-angled cuts
